Lite Tower

VERITAS

Leaders in Advanced Temporary Security Solutions.

The Veritas Lite is the market's first temporary wired CCTV and alarm system. As with all of our products the llte can be rapidly deployed with no minimum-hire costs. The Lite is ideal for smaller sites or compounds that require temporary CCTV or alarm support.

Due to the compact size the Lite can be deployed almost anywhere including stands, shipping containers, walls or any other solid surface. With 24/7 recording you can rest assured that your site is completely covered for any possible incidents.

Features

HD Quality Footage

30 day HD recording and live streaming is standard with Lite.

Video and Audio

Comes complete with a PTZ camera and Audio Challenge features.

Compact & Versatile

The Lite can be deployed almost anywhere.

Always Watching

Our towers wirelessly monitor and record your site 24/7.

Suits Any Budget

The perfect option for high security features on a budget.
