MISSION POSSIBLE VI

5K RACE / 1 MILE FUN WALK

About Mission Possible VI

After going VIRTUAL last year, we are back at Peterswood Park for Mission Possible VI! All race proceeds benefit City Mission's 22-bed house for homeless veterans which officially opened on July 3, 2018.

Join City Mission veterans for a special morning running, walking, volunteering or just enjoying a beautiful morning in the park.

The Veterans say Thank You!

MISSION POSSIBLE VI

5K RACE / 1 MILE FUN WALK

All proceeds to benefit the City Mission's Crabtree Kovacicek Veterans House

How Homeless Veterans Are Unique

Veterans are 50% more likely to become homeless than other Americans due to poverty, lack of a support network, social isolation, and dismal living conditions in over-crowded, substandard housing.

On any given night, there are 76,000 homeless veterans sleeping on the streets of America.

Homeless veterans experience homelessness longer than their non-veteran peers; with an average of nearly six years homeless vs. four years as reported by non-veteran homeless individuals.

96% of homeless veterans are single males from poor, disadvantaged communities.

53% of homeless veterans have disabilities, compared with 41% of homeless non-veteran individuals.

Half suffer from mental illness and two-thirds suffer from substance abuse prob-lems.

The Veteran's Administration reaches only 20% of veterans in need.
