Low VOC Formulation

Low Odor

Formulated without  
Methylene Chloride or  
Caustic Chemicals

Ideal for Historic Restoration  
and Lead Abatement Projects

# PROFESSIONAL STRENGTH PAINT REMOVER

AVAILABLE IN 5 GALLON PAILS ONLY

## Highly Effective & Environmentally Responsible

**SMART STRIP™ PRO** is a professional strength paint remover that effectively removes High Performance Coatings & Lead Paint. It is formulated without methylene chloride and is non-carcinogenic, non-caustic and non-flammable. This water-based stripper will effectively remove multiple coats of oil-based, water-based, acrylics, varnishes, epoxies, urethanes, elastomerics and lead paint from any interior or exterior surface (wood, brick, stone, concrete, plaster, metal, plastic, glass, fiberglass, etc.). **SMART STRIP™ PRO** delivers the superior performance professionals are looking for when removing even the most difficult coatings. This product is low VOC, low odor, biodegradable and user friendly.

## Easy Application and Removal

**SMART STRIP™ PRO** is a water-based paste that is easily applied by brush, roller or conventional airless spray. Allow the paste to dwell on the coatings for 3 – 24 hours, depending on the number of coats and the type of coatings being removed. **SMART STRIP™ PRO** is formulated to remain wet and effective without the use of **PEEL AWAY® Paper** (However, for extended dwell times, the use of **PEEL AWAY® Paper** is necessary and often recommended for Commercial/Industrial projects). After appropriate dwell time, remove the paste and the softened/lifted paint using a scraper. Any remaining residue can be removed with a sponge and water or a power washer. There is no need to neutralize the stripped surface.

## When Performance and Versatility Count

**SMART STRIP™ PRO** is ideal for a wide range of Residential, Commercial and Industrial applications. This product delivers the superior performance professionals demand on Historic Restoration and Lead Abatement projects without damaging the surface being stripped. **SMART STRIP™ PRO** can also be used to remove flooring adhesives/mastics.

## Innovative and Environmentally Safe Solutions From A Brand You Can Trust

Since 1981, **DUMOND®** has excelled in developing environmentally responsible products for the restoration industry. Today, the **PEEL AWAY®** brand is recognized as the market leader of earth friendly, high-performance paint removal products.
