Another Space

Based in London, but working globally, Another Space is a Studio established by the founders of United Visual Artists and d3 Technologies that specialises in creating technically innovative, dynamic spatial design.

Another Space challenges the status quo, mixing design and technology, experimentation and research whilst continuously innovating and surprising brands and consumers alike by creating one-of-a-kind experiences that bridge the digital and physical worlds, and that connect with audiences on a deep emotional level.

Spatial installation, interactive, environmental, and stage design solutions from concept to delivery whether they be performed or experienced live, or recorded.

Key clients: Nike, Selfridges, Massive Attack, BMW Group, Samsung, Cartier, Hermés, Unicef, Google, Bally, Armani, Versus Versace, Jay-Z, Red Hot Chilli Peppers

Markets worked in: UK, France, Italy, USA, Japan, South Korea
