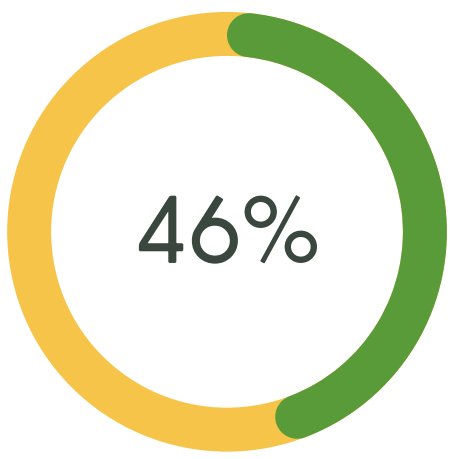
ANALYTICS

The real numbers behind Employee Retention



Almost half of Americans surveyed report they plan to leave their companies in 2023. From software developers to customer service reps, employees of all types are looking for a new employer - and many are leaving due to a lack of growth opportunities.

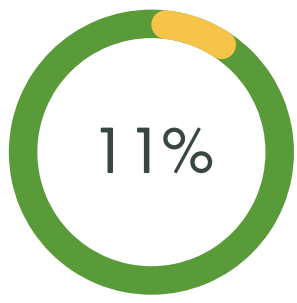
Rhabit builds the manager behaviors that impact 12-month employee retention:

Building Trust

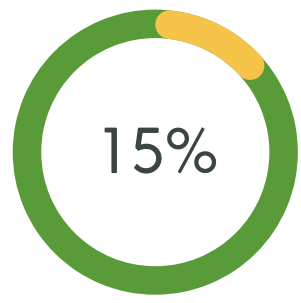
Creating Accountability

LIFT IN ENGAGEMENT AFTER SUSTAINED USE OF RHABIT ANALYTICS

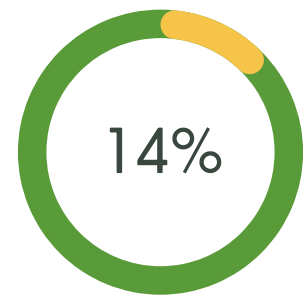
MY MANAGER EXPRESESS CLEARLY WHAT IS EXPECTED OF ME



MY MANAGER DISCUSSES WITH ME HOW I CAN PROGRESS



OVERALL OPPORTUNITY FOR GROWTH



1

Rhabit enables employees to give small, frequent feedback to their company about engagement, retention, and growth.

2

Rhabit helps managers develop retention skills by giving them frequent feedback on the behaviors proven to improve retention and satisfaction.

3

HR managers and executives use their Rhabit results to pinpoint reasons for turnover, identify opportunities to improve, and develop cultures of retention and productivity.
