Child Sponsorships provide the opportunity for children to grow up healthy, educated and safe

Homes of Hope provide a family style, loving and safe environment for vulnerable children to thrive and achieve their full potential.

Camp Hope is a space where children learn about Jesus, experience unconditional love, discover their value and realize that their life has a meaningful purpose.

Why become a church partner?

Church Partners

By adopting a “cluster region,” Church Partners are engaging in our long-term strategy for hope and transformation in a specific region. Working alongside the Collective Hope team, Church Partners help lead transformation in children’s lives through our core initiatives.

Church Partner Objectives

01. To partner with the local church to facilitate Kingdom expansion in their region.

Collective Hope's mission to keep hope alive is rooted in the message of the gospel. We believe that hope and transformation are found in Jesus Christ. Our hope is that through ongoing conversation and opportunity, church partners can walk alongside Nepali churches to expand the reach of the gospel in their region via appropriate mission opportunities.

02. To encourage, strengthen and equip the local church in your cluster region.

As your relationship with the host church develops, we encourage church partners, along with Collective Hope's leadership, to identify and implement specific strategies to encourage, strengthen and equip the local church they serve alongside.

03. To facilitate the initiatives based on the level of partnership commitment.

While we understand each church has specific ministry strengths and interests, we ask church partners to commit to focusing on implementing and executing the specific initiatives outlined in this document.

04. To serve according to the stated values.

Collective Hope's guiding values have been forged through many years of service in Nepal, and they provide the foundation for all that we are and do.
