LETTER FROM THE CEO

Dear Shareholders,

On September 29th, 2022, the Company's EGM approved the acquisition of RightBridge Ventures AB and approved a so-called reverse takeover transaction (the "Transaction") with the shareholders of RightBridge Ventures AB. On October 6th, 2022, the Company closed the Transaction. The Company changed its name from Agilit Holding to RightBridge Ventures Group, a new board of directors was appointed, I was appointed chief executive officer and RightBridge Ventures portfolio of companies became the core business of the group.

For information about how RightBridge Ventures consolidated net sales have grown from ca. SEK 4.7 million to ca. SEK 8 million in 9 months, refer to the addendum to this report "RightBridge Ventures AB Proforma Q3 and January - September voluntary information disclosure" at page 24.

This EGM was the closing of an intensive period that started on June 22nd when the Company and RightBridge Ventures AB signed a conditional share purchase agreement for the purchase by Agilit Holding of 100 % of the outstanding shares of RightBridge Ventures AB for approximately 93.5 % of the shares in Agilit Holding AB. These types of transactions are called reverse corporate takeover transactions.

Yet, regardless of their nature, corporate transactions are only instruments to support underlying value creation for shareholders, customers and/or society. This transaction is no exception. Current and former Company's board of director as well as management teams have been working on this transaction with the objective to offer the opportunity to the Company current and future shareholders to be part of one of the most dramatic transformation journeys that our society is going through: WEB 3.0

Investing in the spearhead of WEB 3.0 social transformation: esports and gaming

Esports and gaming are catalysts of the WEB 3.0 social transformation. Web 3.0 brings the opportunity to democratize the online experience, enable users to reclaim control of their data, and open the door to mass customization with one or several digital twin identities. Esports and gaming are the spearheads of the WEB 3.0 social transformation.

Fortnite's Battle Royal gaming platform became a 28 million concert experience with Travis Scott. Esports and gaming platforms, i.e. Minecraft, Fortnite have become the springboard for companies such as Pepsico, Nike or Unilever to enter and develop a digital twin society and lifestyle towards digital native consumers.

In the past, gaming drove the development of computer hardware, community platforms and search engines have created the foundations of today's digital media conglomerates such as Meta or Alphabet. Today esports and gaming companies and community are leading the merge of social digital media and WEB 3.0 technologies (blockchain, artificial intelligence, machine learning…). A whole digital native generation is learning and creating new social and economic rules for the digital twin society. On the back of those changes, savvy brands are creating new products, distribution channels and media that challenge the oligopoly of traditional digital media conglomerates. RightBridge Ventures Group's portfolio companies are contributing to those changes and helping those brands to find their audience and new markets.

The Company, after the Transaction, includes a diversified portfolio with multiple revenue streams that, combined with the execution of synergies in sales, community management and technology, have delivered 68 % organic sales growth and significant cost savings for the Period, reaching ca. 8MSEK, compared to the full year 2021 on a comparable proforma basis.

Future outlook and ambition

RightBridge Ventures Group's current portfolio of companies' full potential is far from being fully exploited. Our journey has just started, hitting the ground running. Our potential is only limited by our capabilities to execute and the Company's means for execution are:

- Lillmix and Team Singularity esports organizations attract the attention of over 10 million consumers in Scandinavia, UK and Brazil through tournaments, events, relevant streamers and collaboration. They generate hundreds of hours of relevant content for consumers and critical context for brands to tap upon the attention of the community. Current media partners have extended their contracts with the teams and several new ones have entered in commercial media distribution contracts with them.

- ESPL and ePulze media and entertainment digital platforms active in over 16 countries and with over 1.2 million registered users. Both are very appealing partners to brands and companies seeking distribution and marketing capabilities of digital assets. The Company sees an increasing demand of these type of marketing and distribution services among digital asset developers (i.e. ESPL partnered with Gamified Finance (GameFi) platform Froyo Games to market and distribute Play-to-Earn Games and digital assets on Ethereum and Binance Smart Chain) and non-digital asset developers (i.e. Warner Music and ESPL have partnered to create MUGA (the Music Gaming Arena).

- Specialized marketing and talent agency Knacks together with esports specialized business advisory firm 1337 esports, bring together consumers and brands with content and context. As the convergence of web 3.0, digital media and esports increases, we see the increasing demand for more sophisticated business models, products and commercial launches.

Investments and corporate transactions are key to our execution strategy. Our ambition is to continue investing with special focus on technology and creative companies with a clear path to profitability that support the role of esports and gaming as Web 3.0 catalysts. An example of this is that after the Period ended, we announced the acquisition of Tricked Esports. Tricked Esports contributes not only with a recurrent, subscription-based business model, but with a toxic free learning environment for thousands of kids, teenagers and adults that learn in a fun and safe way how to behave and act in the digital twin web 3.0 driven society.

RightBridge is continuing to drive profitable growth and we are proud to have you onboard as shareholders!

COMMENTS ON FINANCIAL DEVELOPMENTS

In the parent company RightBridge Ventures Group AB, org nr 559058-5807, Agilit Holding AB's operations were conducted until 30 September. Agilit Holding AB was then the parent company of a group that as of September 30 included Agilit Svenska AB, which in turn owned FHVCare i Sverige AB and Carefindy AB. All companies were 100 % owned during the period. The following comments relate to the operations of the Agilit Holding Group.

Revenue

The Group's net sales for the third quarter amounted to SEK 0.3 million (0.2). The increase in turnover can be attributed to the acquisition of FHVCare, which contributed to the increase in sales.

Costs

The Group's operating expenses for the third quarter of 2022 amounted to SEK 1.6 million (2.8). For the parent company, the corresponding figures were SEK 0.5 million (1.4). This is partly due to a cost associated with the reverse acquisition of VO2 Cap.

Result

The Group's profit after tax for the third quarter of 2022 was SEK -1.3 million (-2.2). For the parent company, the corresponding figures were SEK -0.4 million (-1.4).

Liquidity

As of 30 September 2022, the Group's cash and cash equivalents amounted to SEK 2.7 million (4.7). The corresponding figure for the parent company was SEK 0.1 million (4.6). Cash and cash equivalents in the parent company are affected by the business transfer in August to the wholly owned subsidiary Agilit Svenska AB.

Cash flow from the Group's operating activities during the third quarter of 2022 amounted to SEK -0.5 million (-1.3).

Investments

During the third year of 2022, the Group capitalized costs for own development amounting to SEK 0.1 million (0.4). The amount relates in full to work with the technical platforms Curando 2.0 and FHVCare. The costs for own development have decreased compared to the previous year, mainly due to the fact that the basic functions of the technical platforms Curando 2.0 and FHVCare are now completed and that work on additional functions towards, among other things, elderly care will begin only after the reverse acquisition of RightBridge Ventures AB was completed in October 2022.

Solidity

The equity/assets ratio for the Group as of 30 September 2022 was 75.7 % (57.9) and for the parent company the corresponding figure was 98.8 (82.2) %.

Share

During the period there was one class of shares in RightBridge Ventures Group AB, (formerly Agilit Holding AB) . The number of shares in the company on 30 September 2022 amounted to 208,430,382. Total share capital amounted to SEK 1 million (0.5). The quota value was SEK 0.004798 per share on 30 September 2022. See table below for the development of share capital.

The company was listed on February 28, 2022 on Nasdaq Stockholm First North as Agilit Holding AB.

The objective of the Release is to provide a fair representation of RightBridge Ventures AB's portfolio companies performance and activities over the covered Periods. The detailed transactions below are deemed to have a direct effect on the future results, financial position, and cash flows in the consolidated financial statements of RightBridge Ventures AB's portfolio companies.

- Closing of the acquisition of 59.18 % of the shares of Knacks Spa Zoo (March 2022).

- Closing of the acquisition of 89.99 % of the shares in Team Singularity ApS during (June 2022).

In addition the Release carries forward the effect of the following events from 2021

- Closing of the acquisition of 100 % of the shares in iCandy Digital Ltd which owns 16.37 % of the shares in ESPL (March 2021).
- Closing of the acquisition of 6.17 % of the shares in ESPL (February 2021).
- Closing of the acquisition of 5 % of the shares in Lilmix AB (April 2021).
- Closing of the acquisition of 18.11 % of the shares in Lilmix (August 2021).

The purpose of the Release is to illustrate the hypothetical effects that the transactions above would have on the results of RightBridge Ventures AB consolidated portfolio companies if those had been carried out as of January 1st, 2022 and make it comparable with the 2021 proforma statements published in RightBridge Venture AB's investment memorandum published on the 15th of September 2022. The proforma results of RightBridge Ventures AB's consolidated portfolio companies may differ from the actual or future results.

PROFORMA Q3 AND JANUARY – SEPTEMBER 2022
INFORMATION SUMMARY

Strong organic revenue growth despite macroeconomic headwinds and global turmoil

Third quarter proforma summary

Net sales for the third quarter amounted to SEK 2.87 million. Costs for the quarter added up to SEK 5.5 million. EBITDA for the quarter amounted to SEK -2.6 million including one-off listing costs. Adjusted EBITDA, excluding extraordinary costs, amounted to negative SEK 1.9 million.

Nine months proforma summary

Net sales of the first 9 months amounted to nearly SEK 8 million. This is 68 % higher than the full year 2021 comparable proforma results. Total operating costs amounted to SEK 15.2 million of which approximately SEK 1.6 million were related to the process of listing in Nasdaq First North Growth Market. The Company expects further listing costs to be incurred during Q4.

RightBridge Ventures AB's net income for the period January to September 2022 shows a profit of SEK 2.5 million. This profit is mainly due to a combination of revenue growth in the period, several cost optimizations measures as part of the business transformation of portfolio companies as well as the write off (non-cash item) of former shareholders loans in Team Singularity.

Significant events during 2022

- The Company obtained the approval from the Extraordinary Shareholders Meeting on the 29th of September to close the acquisition of 100 % of the shares in RightBridge Ventures AB.RightBridge Ventures AB continued to invest in the corporate organization by recruiting a Chief Financial Officer and a Social Media manager working centrally across all the portfolio companies.

INFRASTRUCTURE SEGMENT

Despite the global macroeconomic environment during the summer (Knacks is based in Poland), efforts have been focused on integrating the marketing activities amongst Knacks and some of the portfolio companies, to increase performance, efficiency and production of innovative campaigns and media products.

Main INFRASTRUCTURE segment significant events during the Period

- 1337 successfully closed a six month transformational project, delivering an improvement of EBITDA at Team Singularity of 65 %, without sacrificing topline. This is a reference case in the industry that shows the potential of the group's Synergy Puzzle transformation methodology.
- Knacks successfully closed the Streamers League Valorant marketing campaign and event sponsored by HyperX and produced by 3League with a prize pool of approximately 200 000SEK and a consolidated view of ca. 1 200 000 viewers in 6 countries (Poland, Czech Republic, Greece, Romania, Hungary and Slovakia).
- Knacks successfully delivered the Dr. Pepper Academy project.
- Knacks successfully closed the "Graj Swoje" Campaign (https://www.grajswoje.pl/) Together with NTT, Knacks created a special series of six episodes for the YouTube channel of one of Knacks talents - Michał "Miszel" Niedziałkowski, who conducted educational interviews with invited guests. The classes were aimed at young adepts of FPS games who want to improve their skills, from in-game to mental training. Since the beginning of Knacks activities, one of the main goals was the proper education of future esports players.

Proforma

CONSOLIDATED proforma Profit and loss information

Revenue

Total revenue in Q3 2022 amounted to SEK 2.87 million. Segment-wise, revenues have come mostly from the Metaverse segment with 72 % of the total revenue and 28 % coming from the infrastructure segment.

From a services breakdown, the quarter was particularly strong for Team Singularity (Metaverse) with SEK 1.1 million in revenues from tournament prize money, SEK 0.6 million in player transfers and SEK 0.3 million in sponsorships. Our subsidiary Knacks (Infrastructure) had revenues of SEK 0.7 million mostly from marketing services.

Costs

Operating costs have amounted to SEK -5.5 million and consist of other external costs of SEK -2.6 million, personnel costs of SEK -2,2 million and specific listing costs of SEK -0.7 million that can be considered as one-off costs.

EBITDA

EBITDA in the quarter amounted to SEK -2.6 million, excluding the above-mentioned listing costs it would have yielded a normalized EBITDA of SEK - 1.9 million. The Metaverse segment has reported for the period SEK -0.35 million and Infrastructure segment SEK -0.45 million. The rest of the EBITDA can be attributed to RightBridge Ventures AB. The group employs ca. 40 employees, of which 3 work at RightBridge Ventures AB.

Depreciation & Amortization

The group has a very low base of fixed assets so the depreciation for the Period has been SEK 0.05 million. Amortization of goodwill for the Period amounts to SEK 0.5 million.

Financial income and expense

Financial income from associated companies and other investments amounted to SEK -0.34 million, which are the pro-rata losses for the 6.17 % direct investment in ESPL and the 16.37 % indirect investment also in ESPL via its fully owned subsidiary ICandy Digital. The net financial income amounted to SEK 0.04 million arising from foreign exchange value adjustments.

Net result

Profit after tax amounted to SEK -3.5 million in the Period.

JANUARY - SEPTEMBER 2022

Revenue

Total revenue amounted to SEK 8 million. This means that already in the first nine months of the year, RightBridge Ventures has delivered an increase of 68 % of revenue compared to the full year of 2021. CAGR (Compounded Average Growth Rate) on a quarterly basis for 2022 amounted to 28 % across the group. The metaverse segment represented 72 % of the total revenue for the year whilst the infrastructure segment was 28 %. The infrastructure segment has focused during the year to support the transformational process of the metaverse segment in sales, marketing and community management.

Costs

The costs for the period have been affected by the transformation process of the current portfolio companies, strengthening management, and becoming a listed company.

The Company's strategy for its acquisitions combines both a growth path in addition to its pursuit of profitability. In the case of Team Singularity, the company has grown its revenues on average 21 % for each of 2022 quarters as well as reducing its personnel costs by 45 % from Q1 to Q3.

This has been partially offset by the need to increase the external expenses and personnel costs at the RightBridge Ventures AB for listing and management purposes.

EBITDA for the first 3 quarters has been SEK -7.3 million. Normalized EBITDA, excluding SEK 1.6 million of listing costs, is SEK -5.7 million.

Amortization of goodwill for the first 3 quarters amounts to SEK 1.6 million.

Financial income from associated companies has been for the first 3 quarters of the year SEK -1.25 million, which are the pro-rata for the 6.17 % direct investment in ESPL and the 16.37 % indirect investment also in ESPL via its fully owned subsidiary ICandy Digital. This has been offset by the financial income of SEK 12.8 million arising from the write off of shareholders and affiliates loans at the subsidiary Team Singularity.
