MORALLY RESPONSIBLE INVESTMENT

SPF is committed to the principle of using economic means as a non-violent and constructive approach to the pursuit of justice and peace. This applies to the conflict in Israel-Palestine as it does to injustice and oppression in other parts of the world.

This requires that we apply conscious, responsible, and ethical choices in investing our financial assets and in purchasing agricultural and manufactured products.

In order to enable and assist our members and the general public to make such choices, we are committed to encouraging and facilitating educational and training programmes in Morally Responsible Investment.

Adopted by the Committee on 16 September 2019.
