

CORN PLUS *Truck Line Details*

Per MnDOT, “No Parking” signs on Highway 109 are in place due to safety of drivers whom exit their trucks while parked on the shoulder, and the deteriorating of the shoulder due to weight of the trucks.

Effective immediately, the truck line will move as follows (See Image Below):

Line 1 (Red): Using main entrance, start line from Scale House to the road

Line 2 (Blue): Using the exit drive, create overflow to Line 1; Must park back far enough to allow themselves space to ease into Line 1.

Line 3 (Yellow): Using the exit drive, create overflow for Line 2; Must park back far enough to allow themselves space to ease into Line 1.

We will continue to evaluate this process and look for feedback from you of this change on how to improve the situation further.
