Slip stitch into the magic circle.
Pull heart shut with the tail. Weave in all ends.

**Magic Loop Technique:**
1. Start by making a loop with approximately 6 inches of yarn making a tail.
2. Hold the loop closed with your thumb and the middle finger of your left hand.
3. Take your hook in your right hand, insert it into the center of the loop, grab the working strand of yarn, and pull it through to the front.
4. Work one chain in the loop.
5. In the loop, continue making the number of stitches required for the pattern.
6. Hold onto the ring while pulling on the tail (pull firmly) to close the center hole. Begin working the pattern as directions indicate.

Note 1: If you do not pull firmly enough the hole will gradually open while your work.
Note 2: If you are making these to hang on trees or bushes or somewhere else, it is easier to make a loop before you go out so that you can slip it over the branches quickly instead of tiring your arms by tienig each one up.
