## PCIPAD

“The PCiPads go un-noticed by our guests....the mattress pads do not change anything about the Guest sleep experience” - ***The Phoenician Hotel***

“We have had several accidents that would have ruined the mattresses but the pads worked. They were washed and placed back on the beds without any difficulty” - ***Aloft***

“We are opening this Hotel in May...I want to protect the investment of the owners. I have seen what happens to mattresses with stains and odors and we don't want that to happen here” - ***Le Meridien***

“They are soft and comfortable...they do not have anything (hair) sticking to them after being washed like the other pads we used to have” - ***The St. Regis***

## PerfectCLEAN

I wanted to send you a note on how pleased we are with the Perfect Clean Micro fiber products. My comments below refers to both the Westin Bayshore Hotel in Vancouver, Canada and the Westin Waltham, MA.

1. They love to use the wipers as they clean the surfaces nicely and they do not leave lint after cleaning like a cloth
2. They reduce chemicals and streaks when cleaning mirrors.
3. Cleaning shower walls and bathroom floors takes less time and they are less tired at the end of the day.
4. The different colors are a big help and avoids cross-contamination.
