

Mississippi Aquarium: Drone Policy
Updated August 17, 2020

Drone Policy:

Unmanned Aircraft Systems (Drone) Policy:

For this policy, a drone is defined as "an unmanned aerial vehicle" (UAV) or "an unmanned aircraft system" (UAS). This restriction applies to privately owned and media outlet drones and is extended to any equipment affiliated with the drone.

For the safety and well-being of our guests and animals, the launching and/or operation of a UAS (drone) from or above Mississippi Aquarium property is strictly prohibited.

Mississippi Aquarium does on occasion operate a UAS (drone). This operation is in strict accordance with FAA guidelines and the operator in constant communication with staff members to ensure the welfare of our guests and animals.

Any unauthorized operation of Unmanned Aircrafts (Drones) over MSAQ property will be reported to law enforcement and the Federal Aviation Administration.
