

Department of Facilities Planning and Management

---

May 10, 2018

Memorandum To: SofSurfaces

It is my pleasure to write this letter of recommendation for SofSurfaces, Inc. As project manager of Oakland Unified School District, Facilities working in coordination with Buildings and Grounds, I have managed many projects using your product. My contacts have been Joe Seavey, Peter Druck and Donald Cooper that have provided support for design, ordering and delivery of your products to our sites.

The current design of SofSurfaces are beautiful and can blend in with the playstructure and sometimes the surrounding of the environment.

As training is required I do suggest that California (northern) can be a site to allow a competitive field of construction companies.

Lee Sims, Project Manager
