

EXERGEN GLOBAL TO BE PRESENT AT SENSOR EXPO 2014

Watertown, MA, Zijtaart, the Netherlands, – May 22, 2014 - Exergen Global, the worldwide value added supplier of Exergen Corporation Industrial Solutions will be present at the Sensor Expo 2014 from June 24 till 26, booth 600, Donald E. Stephens Convention Center, Rosemeont, IL.

According to Transparency Market Research findings, recent developments in temperature sensor technology have resulted in tremendous growth in this field. Especially infrared sensors and integrated circuit sensors are expected to play a leading role in the temperature sensor market in the near future. They are strongly recommended in industries like metals, plastics, food, beverages and become more trendy in aerospace and defense applications.

“Demand for high performance, reliable, no maintenance and therefore cost efficient IR non contact temperature sensors, have resulted in great opportunities for companies like Exergen, stated Pompei, CEO of Exergen Corp and holder of over 70 patents”. “We have a rich family line of sensors AND a tremendous experience and know how to provide our customers with the ultimate solution for their problem, he added”.

The extensive family line of infrared temperature, non contact sensors, IRt/c, consists of micro, pre calibrated, smart, adjustable and customized solutions next to handheld IR scanners and thermal switches. All will be showcased and demoed during the conference.
