

SIBALCO TO EXHIBIT EXERGEN'S AWARD-WINNING THERMAL SENSORS AT SINDEX

Exergen Global Distributor to Demonstrate Complete Family of Non-Contact IR Sensors at Prestigious Swiss Industrial Automation Trade Fair

WATERTOWN, Mass. and ZIJTAART, the Netherlands, August 23, 2018 - Exergen Global, the award-winning thermal sensor solutions provider, announced today that its distributor, Sibalco, will be exhibiting at Sindex, being held August 28-30, at the BERNEXPO-Site, Bern, Switzerland. Sibalco, which recently acquired Exergen Global distributor, Ymatron, will be in booth D04 - Hall 2.2.

While at the show, the company will demonstrate Exergen's full family of sensors, including its IRt/c and micro IRt/c lines, widely recognized as the industry's leading non-powered, small-sized non-contact sensors, offering high repeatability and reliability. Sibalco will also be demonstrating a wide range of Exergen Global's solutions for automation and production applications.

"We're delighted to have Sibalco represent Exergen Global at Sindex, an event well-known as a venue to learn about tomorrow's most innovative technologies for automation and production," said Bram Stelt, Director OEM Sales of Exergen Global. "Our partnerships with top-notch distributors, like Sibalco, are helping to drive Exergen Global's continued growth and reach throughout Europe. We're looking forward to our existing customers and prospects visiting Sibalco at the show to learn more about our cutting-edge thermal sensor solutions."

About Exergen's Non-Contact Sensors

Exergen holds more than 75 patents in the field of non-contact IR temperature sensors, and offers the industry's only self-powered IRt/cs. Its proprietary speed boost equation increases production speeds while maintaining optimal temperatures. Exergen's innovative family of infrared non-contact sensors have no drift, high repeatability and interchangeability, giving them the edge needed to increase production process speed and quality. Its sensors have mean-time-between-failure (MTBF) rates of a thousand years, deliver accuracy of within 0.01°C., have high repeatability, 0.0001°C resolution, and response times between 50 and 150 milliseconds.

About Exergen Corporation and Exergen Global

Exergen Corporation, the global leader in industrial and medical non-invasive temperature technology, provides temperature measurement devices providing lower cost, higher accuracy, less invasiveness, and greater reliability than ever previously possible. Exergen is well known in the healthcare and consumer market for its award-winning temporal artery thermometer. The company was founded by Harvard-research scientist Dr. Francesco Pompei who holds over 70 patents. Exergen Corporation is based in Watertown, Massachusetts, U.S. Exergen Global is the worldwide solutions provider of Exergen Corporation's industrial non-contact infrared temperature sensor solutions.
