WORK EXPERIENCE

User Experience Designer at SID LEE

{Montreal, QC | May–August 2018}

- Conducted weekly user research for web and native apps including observational studies, usability testing, surveys, and workshops.
- Designed information architecture, task flows, wireframes, and interaction models for clients including Samsung, BlackRock, MetLife, Canadian National, and the Heart and Stroke Foundation.

Product Designer at Kamik Footwear

{Montreal, QC | March 2014–July 2016}

- Designed and managed men's product line; created a cohesive design language that influenced products company-wide.
- Sourced and developed manufactured products from Asian factories.

Design Intern at Dan Richard Design

{Portsmouth, NH | January–March 2014}

- Developed technical drawings including patterns, construction details and molded parts for clients in the sporting goods industry.
- Prototyped form and movement for soft goods.

Marketing Coordinator at Aku Outdoor

{Montreal, QC | April–August 2013}

- Devised a pricing and product strategy based on competitive analysis, situational analysis, and the previous year's sales forecast.
- Drafted distribution strategy to grow brand in North American market.

FREELANCE

Product Consultant at Lovevery

{New York, NY | October 2018–February 2019}

- Designed a line of developmentally appropriate bath toys for children aged 36–42 months.

UX Consultant at MY01

{Montreal, QC | April–August 2018}

- Designed, prototyped and tested feature improvements to prepare native app for clinical trials.

UX Consultant at CHUM Hospital Foundation

{Montreal, QC | June–July 2018}

- Designed new architecture and navigation for the foundation's website.
- Conducted usability tests to improve donation checkout flow.
