

# PRODUCT INFORMATION

When selecting Northbeam products a non-verified solution may only be used in structural applications when an engineered-acceptable solution is present and approved. All Northbeam products must be selected and installed correctly in accordance with the New Zealand Building Code. Appropriate stainless steel fasteners and fixings should be used to optimise performance and account for corrosive treatments used to preserve timber such as CCA. All Northbeam products are now BRANZ-Appraised.

## POSTS AND BEAMS
