

Equinet F4 Color Gigabit IP Phone

The Equinet F4 represents the next generation of VoIP phones which are designed to the business user who needs rich telephone features, superior voice quality and high durability. The F4 is equipped with the Broadcom chipset, offers high-definition voice quality through voice engine, HD handset, HD speaker and PoE enabled.

With a large, high-resolution graphical display and 38 keys, the F4 offers an excellent user experience to configure, make calls, express XML browser, etc. Moreover, to avoid problems with unwanted violations of your audio data, the Equinet F4 supports the security standards TLS, SRTP, HTTPS, 802.1x, Open VPN and AES encryption which are necessary to protect against electronic eavesdropping and data theft.
