FEATURES

Equinet.com/services

Equinet offers business phone service and network security solutions that allow you to run your business more efficiently. We manage your calls, secure your data, facilitate disaster recovery, alert you of network issues and provide valuable analytics. Elevate your customer experience with a clean and clear voice call with Equinet.

Auto Attendant

Incoming callers reach the department or individual by selecting an option from a customized message.

Simultaneous Ring

Configure your cell phone or desk phone to ring at the same time when a call comes in.

Voicemail to Email

Receive voicemails as a WAV file in your email inbox.

3-Way Conference

Conference in additional callers to a current conversation on any device.

E-911

Setup an address so responders know where to go in the event of an emergency.

Ring Group

Calls can be forwarded to multiple extensions that will ring simultaneously.

Direct Inward Dialing

Individual phone numbers for each person or workstation internally.

Call Transfer

Attended transfer (alert party before transfer) & blind transfer (transfer the call directly).

Find Me | Follow Me

Setup calls to be forwarded or configured to ring a sequence of up to 4 alternative numbers.

Call Park

“Park” a call in a “spot” to be retrieved by another extension.

Wi-Fi Access

Setup Wi-Fi access for a small office with no need for a separate router.

Web Caching

Cache web traffic to increase the bandwidth and network speed.

Call Recording

Record up to 500 hrs of inbound and outbound calls.

3G | 4G Failover

Backup your internet with 3G/4G or another cable automatically, making sure everything always stays online.

Meet Me Conference

Call anytime and anywhere you want to meet.

On-Site Backup | 250GB

Automatically backup files, keeping your information safe and accessible.

Central File Storage

Organize and encrypt documents centrally on-site, giving only authorized users access.

Quality of Service | QoS

Prioritized data traffic ensures the highest call quality, no jitter, echo or distortion.

Local and Long Distance

Local and long distance calling throughout the US and Canada.

Music on Hold

Upload your own music or customized recording.

Fanatical Customer Support

Fanatical customer support that will not let you down.

Off-Site Backup | Up to 100TB

Keep your information safe with automatic backup of all computers

Virtua | Fax

Send and receive faxes through your email or the web on a smart phone.

Fax ATA

Send and receive faxes using a traditional fax machine by connecting it to a fax enable device.

Wireless Access Point

Setup a guest and private network with wide range wireless internet access.

Battery Backup

Stay connected during a power outage or failure.

Anti-Virus | Anti-Malware

Block viruses, spyware, and other malware and secure your network.

Enterprise Firewall

Protect your internal network from malicious access and setup trusted IPs, port forwards, DMZ, etc.

Content Filtering

Apply filtering of specific content and configure up to 30 different profiles.

Virtual Private Network | VPN

Connect through an encrypted network to easy to share files and services for the staff at your branch and remote office(s)

What is All-In-One Services?

Equinet is your single-source carrier liaison for all of your adaptive and reliable voice and IT services. No need to have several services from several providers with several payments to make each month. Equinet will take care of all of them, with one source for support and one low payment to make each month, making budgeting easy. No matter what your business does, Equinet has a team of highly skilled individuals to work with you creating and maintaining all of your business phone and IT needs.

Customized to your needs.

Equinet will work hard with you and provide a free analysis for you to determine the best systems for your needs. We will customize features for your business, whether it be phone services or IT, connectivity, or security issues. All of your services are integrated and delivered through a single state of the art enterprise device.

We make it simple.

Because all services are delivered into one box, setup costs are minimal and monthly fees are low. Changes to your system is also kept to a minimum charge because everything is done seamlessly and with great simplicity.

Leading brands trust Equinet to power their communications:
