

# C SERIES

CUSTOM SIZES  
FOR ALL BLIND TYPES

## DESIGNED TO DISAPPEAR

Blindspace® C Series boxes can be made to any size, to conceal all types of blinds, achieving minimal visual impact. The box is installed during construction with the space accessible for blind installation once the room is completed. It features the patented Blindspace® Safety Hinge that secures the cover in place and can be installed in any direction, together with side boxes to hide blind side channels and/or guide wires. Custom C Series boxes are used for very large blinds, double blinds, gable blinds and skylight blinds. C Series boxes can also be installed to future-proof buildings to have the option to install concealed blinds later.

Example: C155x80R  
Example: C220x130R

**Accessories**

End caps made in any size  
Splice plates to align covers

**Material**

Cover: Aluminium, EN 6063 T6  
Back box: Aluminium, EN AW-1050A

**Finish**

Powder coated white RAL9003, 30% gloss  
Powder coated to specific RAL colour  
Raw aluminium

**FEATURES**

**Seamless appearance after painting**

Plaster is feathered over skim coat flanges to hide the box leaving only a thin hairline between the ceiling and the Blindspace® cover.

**Cover painted to match window or ceiling**

The cover can be provided in specific RAL colour or painted at site with primer and emulsion paint, to match window or ceiling.

**Safety hinge securing the cover in place**

The safety hinge ensure that the cover is not falling to the floor if accidentally opened.

**Cut to finished length, maximum 3m**

Blindspace custom boxes and covers are supplied by manufacturer cut to finished length or in 3m length. Splice plates are supplied to align covers for lengths longer than 3m.
