Professional Experience —

- **Google: Search**
Interaction & Visual Designer
New York, NY | 2023-present
Building a new product on Google Search focused on capturing expressive and helpful user-generated content.
- **Google: Phone by Google**
Interaction Designer
San Francisco, CA | 2020-22
Led design for suite of features to connect users and businesses, from shaping strategy, to prototyping, to end implementation, which were featured in Google Pixel launches. Designed a scalable new experience for the in-call UI.
- **Google: Material Design**
Interaction Designer
San Francisco, CA | 2018-19
Designed an accessible system of date pickers and authored its spec on material.io. Developed strategy to support enterprise teams at Google. Held design reviews with product teams to support application of design system.
- **LinkedIn, UX Design Intern**
Sunnyvale, CA | Summer 2017
Conducted user research and redesigned LinkedIn's internal tool for sales representatives.
- **StreetEasy (Zillow), Graphic Design Intern**
New York, NY | Summer 2016
Created data visualizations for StreetEasy blog with data scientists; designed style guide and visual content for marketing emails.
- **Capital One, UX Design Intern**
San Francisco, CA | Summer 2015
Designed and prototyped an experimental app to help users manage their financial fitness.
