ARTIKEL 6 // ROUTE

SpartacusRun / Team:

A lap is between 3 and 5 kilometers long. The course is adapted to local conditions. A lap includes at least 10 obstacles at each location. Singles do two laps, the team runs one lap together and the slowest time is evaluated.

SpartacusToddler:

1 lap on separate course

SpartacusKids:

2 laps on separate course

Spartacus Juniors:
1 round on original course

If the race has to be abandoned for any reason, the race management must be informed.

The race management has the right at any time to change the course or to close individual obstacles during the race. We ask all participants to be fair and considerate.

ARTIKEL 7 // TIMEKEEPING

The time is measured using a disposable transponder which is integrated in the start number. The net time is measured. The time measurement starts with the individual crossing of the time measuring mat.

The start number must be worn visibly on the chest.

ARTIKEL 8 // START

It is started in starting blocks. Per starting block there will be about 50 runners starting with an interval of 30 seconds. The starting blocks are divided into individual performance level. Here we are dependent on fairness.

ARTIKEL 9 // OVERALL CLASSIFICATION

In order to be included in the overall ranking, at least 3 Spartacus Runs must be completed in the same calendar year, only the participations in the SpartacusRun category count. The three best results will be used to determine the overall winner. If two or more participants have the same point total, the better finisher time decides. If no strike result is available, the average finisher time will be determined and evaluated.

The scoring is calculated by the ranking points. The winner is the participant with the lowest number of points. Only participants who start in the Singles category will be ranked.

Further details can be found on the website under the point overall ranking.

ARTIKEL 10 // TEAM

The category SpartacusTeam is a team of 3 runners, which run a lap of the original course together.

If a team member drops out at short notice, the race can also be completed in a team of 2. In this case it is necessary to inform the organizer at the latest when the race numbers are handed out.

ARTIKEL 11 // STRAFEN

Who does not cross an obstacle, must compensate this with 20 push-ups. The respective track marshals are responsible for checking the correct handling of the obstacles and push-ups. The

self-discipline and fairness of each runner are also appealed to. The race will be supervised by the race director and in case of a gross violation a runner can be disqualified.
