

Collecting Glasses for a Mission Trip

If you have eyeglasses you no longer need, consider donating them. We are collecting glasses for Vitreo-Retinal Consultants, Inc. physician Robert E. Wenz, MD, who will be participating in a mission trip. Dr. Wenz will be travelling to southern Africa to bring eyecare to an impoverished community.

Any glasses donated should be gently used, and in good-to-excellent condition - no broken frames or missing lenses. Thank you for giving sight to those who need it!
