

Expression of Interest: Family wanting to connect to establish family-governed supported accommodation

SILC has been in contact with a family who are very interested in SILC's family-governed model, but do not have other families to establish a home with at the moment.

Please see below a brief description of their daughter:

A little bit about her:

- 28 years old with an Intellectual Disability
- She is non - verbal but can communicate other ways
- She is social so would like someone similar
- She likes music and dance
- Requires overnight support
- Would like to live in Eastern Suburbs or city

Prospective housemate:

- Prospective housemate would ideally be female
- Ideally, housemates would be of a similar age group as their daughter
- Ideally, housemates would be gentle by nature and without a history of outwardly aggressive behaviour
- Families would be open to use calming & relaxation technics at the house

If you would like any further information or would like to connect with this family, please contact Gloria Boyle, Senior Development Officer via email: gloria@silc.coop
