

ENGINEERING LABEL SOLUTIONS

**TAGIT PRODUCES
EVERY TYPE OF EM LABEL
COMPATIBLE WITH
ANY EM SYSTEM IN THE
MARKET.**

Tagit has developed and comprehensively owns all the technology of EM label tag production from raw material to the finished product. The entire manufacturing process is carried out in-house – from casting the special EM metal filament, all the way through to printing a customer's logo on a desired label.

Here below, you will find label tags within our range that will be 100% compatible with the specific needs of your application and detection systems technology.
