

FOOD LABEL SOLUTION

New EM weigh-scale food label

Benefits

- weigh-scale label with embedded security
- no additional labor cost to apply labels
- can run and be printed with any printer version
- labels are quick, easy to apply and low-cost
- Printing Quality is obtained
- Security tagging is not longer dependent on staff which can be unreliable and inconsistent

Being the shortest EM Security Label at 50mm long, it can be detected on the full range of EM Systems, such as Tagit, Certus, Gateway and Meto systems.

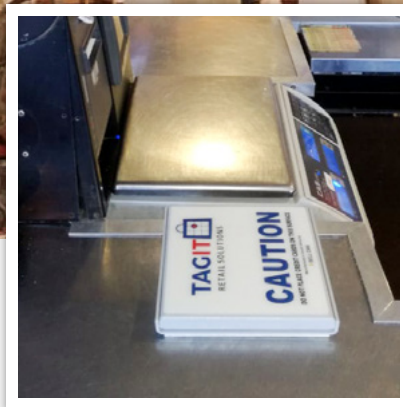

The perfect way to protect all high-risk fresh food products weighed and packaged in the store.

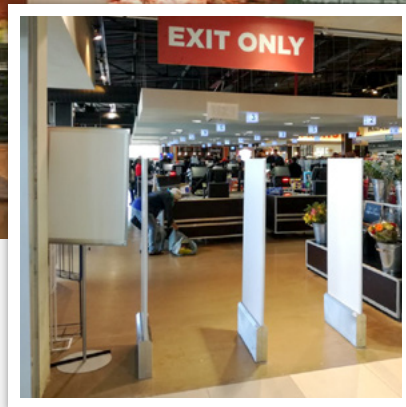

GOOD LOVER'S MARKET

Customised Food Labels

Deactivator @ Cashier

Exit Protection (can be branded or used for ads)

We offer:

- 1 Based on the labels your customer is currently using TAGIT offers a quote on labels including protection.
- 2 Deactivators for the cashier, to deactivate after the shopper has paid for the fresh food (photo).
- 3 Gates for the exit, will trigger an alarm, if the food was not paid for and the label is still active (photo).
