

MARCH FOR SCIENCE

4/14/18 10:00 - 1:00 1025 S. 1st Street

**STUDENTS
FOR
SCIENCE**

Students for Science Club!

Students for Science started as the Student Outreach group of the March for Science: The Science Teens. Working together as a group of students motivated to protect their future, this group became STUDENTS FOR SCIENCE.

"OUR GOAL IS TO EMPOWER YOUNG PEOPLE TO ENGAGE WITH AND ADVOCATE FOR SCIENCE IN THE PUBLIC AND PRIVATE SECTORS."

--STUDENTS FOR SCIENCE

REGISTER YOUR CLUB!

Created by students, for students, the Students for Science club will bring together high school students, teachers, and scientific experts in regular meetings with an available, flexible curriculum. Through after school programs, the club will promote student engagement in science and increased science literacy. Through its link with the March for Science organization, club organizers will be able to match with local scientists and experts for lessons, workshops, and talks.
