

## Rekola Addon EVA pouches with Velcro flap

10-90031

Product code	Color	Dimension	
10-90031	Gray	170 x 260 x 450/500 CM	<b>Rekola Addon</b> EVA pouch with Velcro 400 grs
<b>Packed</b>	1 pcs per PP bag		25 pcs 1-pack per transport box
<b>Where:</b>	In conjunction with utensils and trolleys, optimizing the cleaning process. Suitable to any project inside and outside. EVA is resistant to most chemicals and can be disinfected.		
<b>How:</b>	<p>Optimal in conjunction <b>Rekola Motion trolleys</b> and or <b>Rekola Reflex concept</b>. Also suitable for other brands and concepts and at machines.</p> <p><b>Rekola Addon</b> EVA pouches are ideal to add functionality to trolleys; increase storage capacity around the trolleys and reduce trafficking between cleaning and laundry. Ideal at storage of cloths, mops; but also suitable to collect bio-waste or collecting bottles and tins.</p> <p>The EVA pouches are tested for carrying 20 kg static weight and are multifunctional and multi-purpose.</p>		
<b>Mount:</b>	<b>Rekola Addon</b> EVA pouch with Velcro can be simply attached to trolleys and machines by using the large EVA flap wrapped around the frame tube e.g. on plastic bag frame and secured with the Velcro strips.		
<b>Demount:</b>	Release the Velcro and the bag comes off the trolley. The handy shoulder strap with shoulder pad makes it comfortable to carry when filled with dirty cloths or mops.		
<b>Flexibility</b>	The <b>Rekola Addon</b> EVA pouches are designed so, that they personalize the trolley. They also can switch between trolleys or carried by the 38 mm Polyester strap with shoulder pad, when taking the cloths or mops to the laundry.		
<b>Color coding or identifying</b>	The front of the EVA pouch has an EVA envelope with window for inserting a color coding card or other identity mark e.g. AEN code card.		

# REKOLA

Maintenance	
<b>Ergonomics:</b>	The Rekola Addon work belt reduces the trafficking, as it influences the process of walking back and forward to the cleaning trolley during the daily manual cleaning. The adjustable Polyester strap with shoulder pad, guarantees the right carrying position when taking the mop from trolley to laundry. The angle of the opening and the metal wire inside the border make it simple to drop the cloths or mops into the pouch.
<b>Cleaning:</b>	The EVA pouches are -20° and +100° Celsius and disinfectant chemicals resistant. Rinse the bag with hot water and optional disinfect with disinfectant wipes. Do not use Deko-machines as the temperature change may deform the shape of the pouch.
<b>Disposable:</b>	EVA and stainless steel when collected separately, can be recycled.
Components	
belt	Polyester knitted 33 mm belt with adaptable Polypropylene length adjuster.
Pouch and shoulder pad	EVA (Ethylene Vinyl Acetate), 18-20% VA, pouch with leather surface structure, waterproof welded.
Velcro and extenders	Polyester Velcro and Polypropylene belt extenders, inside the EVA welded border metal wire to hold the shape and opening.
Extra options* <small>*not included in price</small>	In conjunction with Rekola Motion trolleys and optional with 11-90040 Rekola Addon Polyester Mesh-bag for laundry.
Characteristics	
functionality	<b>Rekola Addon</b> EVA pouches offer a flexible way of personalizing your cleaning trolley and cleaning process. Because the pouches are multifunctional there are almost no limitations for usage within the cleaning process. They also may be mounted to sit-on cleaning machines adding extra functionality and storage for e.g. hazard cleaning situations.
ergonomics	As the Rekola Addon EVA pouches are extremely light and can be carried by the adjustable shoulder strap with protecting pad, the carrier can comfortably bring the bag from the trolley to the laundry.
Guarantee	
One year manufacturer guarantee after purchase.
