

PARTNERS IN INCLUSION PROGRAM*

Training for Today's Child Care & Recreational Professionals

The Partners In Inclusion Program at Community Partnerships has worked with hundreds of child care and recreational providers across the Triangle region. Together, we've helped children of all abilities thrive and succeed.

Partners In Inclusion provides training and consultation to professionals just like you, empowering you to expand your outreach, enhance your professional development, and build environments that are truly reflective of the communities you serve. For providers working with children ages 3-18 with developmental concerns, we offer:

- **On-site consultation and technical assistance**—When working with a child with a disability or social-emotional challenges, even the most skilled and experienced provider may have questions or concerns. The Partners In Inclusion staff works in your classroom and demonstrates easy-to-apply strategies and simple accommodations that will help the child succeed. We believe that you are the expert when it comes to your own classroom. Our goal is to blend in seamlessly, partner with you to problem-solve, then phase out our support as you master new skills and techniques.
- **On-demand training**—Child care and out-of-school-time providers can request training sessions that meet their specific scheduling and staff education needs. Partners In Inclusion trainings are tailored, convenient, and offer information about a broad range of topics. Providers earn N.C. Division of Childhood Development credits for all trainings.
