

Vocantas and IN-RGY Announce Formal Collaboration

This combined solution will provide customers with migration and expanded capabilities within the Human Capital Management Solutions market so they can access important new features

OTTAWA, ON, JUNE 11, 2019 – [Vocantas](#), the leader in multimodal communication, and [IN-RGY](#), integrators of human capital management solutions, announced today a collaboration to provide a migration path to customers who upgrade or change their Human Capital Management Solution.

“By leveraging the capabilities of each company, the combined solution will provide an integrated end-to-end automated scheduling capability to global Human Capital Management Solutions markets,” said [Gary T Hannah](#), CEO, Vocantas. “Together, Vocantas and IN-RGY are building a leading progressive product to enable business objectives for both existing and new customers in the Human Capital Management market.”

“IN-RGY is pleased to partner with Vocantas. IN-RGY has been working in the Human Capital Management market for many years. Vocantas will allow us to push our [Labor IN-Sight](#) solution even further by offering to our customers an All-in-One multi-channel communication system” says [Thierry Bodson](#), Global COO/President of IN-RGY Canada.

[Automated Shift Fill](#) offers open shifts to employees via text, phone with (IVR), mobile and email, enabling employees to select which shifts best suit their availability in whatever modalities they choose. This process enhances employee engagement and contributes to better employee retention. No manual phone calls required. Automated ontologies such as Master Rotations, Union Guidelines and Organizational Policies rapidly fill shifts in minutes, not hours.

About Vocantas Inc.
