

Preschool Ages 3-4

The Summer Camp preschool offers some of the same Montessori experiences as are offered during the school year, but it is a more relaxed “camp” environment. Preschoolers will follow and explore the same weekly themes as the older campers, but they are scaled down and adjusted for a preschooler’s temperament and abilities.

These younger children join older campers for many camp projects and field trips, swimming and picnics.

Preschool Camp is limited to 10 preschool age campers

Summer Day Camp Ages 5-12

The Children’s House Day Camp provides weekly themed activities in a relaxing environment free of competition. Day Camp activities include art, drama, games, recreational swimming, field trips and many outdoor activities. Campers may also participate in the library’s summer reading program.

Day Camp is limited to 25 campers

Offering an Organic
Education Since 1971

An Organic Education

Celebrate Difference

Our differences in culture, ideology, lifestyle, ethnicity, and self-expression are not simply tolerated, they are cause for exploration and celebration.

The Family as Community

Upholding a commitment to the student's family is vital to the school community. Integration of the family is essential to a child-centered philosophy.

Honoring the Authentic Child

A child is not viewed as possessing strengths and weaknesses but as an individual composed of a complex set of abilities. Every child is accepted as a complete and valuable person capable of individual accomplishment and civic contribution.

Children's House Mission

The Children's House was founded to provide a classical education through individual instruction. Today, in an atmosphere free of competition, the child can discover his or her unique talents on the way to becoming a self-actualized individual.

Summer Camp Session One

6/11-6/15: Playground Connoisseur

This was a big hit last summer! Campers will have the city and surrounding area playgrounds to explore. We will compare and contrast, review and report, and rant the best and the worst places a kid in our city can play.

6/18 to 6/22: Footprints and Flight

We've combined the best of two of our most popular camp weeks! Campers will explore animal tracks while studying indigenous birds of Indiana

6/25 to 6/29: Build It

We will discover how different kinds of structures are built. We will look at various sorts of dwellings humans have used through history, and the fundamentals of constructing a home. We will look at some notable examples and use materials here at camp to design and construct our own.

7/02 to 7/06: Musical Movements

Campers will learn about styles of music. They will play guitars, drums, xylophones, and keyboards, creating their own songs. We will wrap up the week with a group performance. (No camp on July 4th!)

7/09 to 7/13: Animals in Our World

This week we will learn about the animals we share our world with, particularly in Indiana. We will visit the Nature Center at Eagle Creek. We will also take a field trip to the Children of Indiana Nature Park, in Centerville, Indiana

Summer Camp Session Two

7/16 to 7/20: Sports Week

This whole week is dedicated to playing sports. We will also spend time learning the rules for various sports, some famous athletes in each sport, and which sports are most popular in different parts of the world. But mostly, we will be playing and winning at all of the sports!

7/23 to 7/27: GetYour Game On

A favorite for many! Campers will learn a wide variety of different games, including, card games, dice games, board games, and video games, during this gaming extravaganza!

7/30 to 8/03: Hoosier History

We peer into Indiana's past this week. We will explore important events and notable people from our state's history, from Eugene Debs to Larry Bird. We'll discover important contributions Indiana has made to the nation, and we will visit the Indiana State Museum, along with some other historic sites around the city.

8/06 to 8/10: The Art of Junk

Campers will re-purpose trash and recycling items to create a variety of truly original art projects, including musical instruments!

8/13 to 8/17: Arts and Entertainment

Together, campers will explore the basics of theater, film, and television, and the history of entertainment in the American culture. We may visit art galleries, take in a movie, view a documentary, or watch a live band perform.
