

<u>Topic</u>	<u>Description</u>	<u>Speaker(s)</u>
<p><i>Doors Open at 7:00 am along with Registration, Buffet, Speaker Check-In, Exhibits</i> <i>7:00 am – 8:00 am</i></p>		
<p><i>Welcome and EPIcenter Update</i> <i>8:00 am – 8:10 am</i></p>		<p>Kimberly Britton, CEO, EPIcenter</p>
<p><i>The Coming Surge of Electrification</i> Keynote with Moderated Q&A <i>8:10 am – 8:35 am</i></p>	<p>There is so much in the news about the shift to rooftop solar, electric vehicles, cleaning up energy supplies and on and on. In the opening keynote, discover what this all means to the business leader and consumer today and how to navigate through the static.</p>	<p>Marlene Motyka, US and Global Renewable Energy Leader, Deloitte</p>
<p><i>The "Electrified" Utility</i> <i>8:38 - 9:08 am</i></p>	<p>Increasing pressure is being applied to utilities to innovate and prepare for the increasing challenges of distributed power sources. They must keep the lights on and do so at a reasonable cost all the while innovating. During this discussion of high-level utility executives, gain perspective on what they are thinking about the future and how they are getting ready...and what it will mean to you.</p>	<p>Moderator: Jan Vrins, Global Energy Practice Leader, Navigant Paula Gold-Williams, CEO, CPS Energy Kerri Stewart, VP and Chief Customer Officer, JEA</p>
<p><i>Tech Talk: Big Sun Community Solar</i> <i>9:10 - 9:20 am</i></p>	<p>Hear from Big Sun which is expanding solar accessibility to more households than ever before with a new business model.</p>	<p>Jason Pittman, Co-Founder and President, Go Smart Solar</p>
<p><i>FIVE MINUTE BREAK</i> <i>9:20 am – 9:25 am</i></p>		

<p><i>Lead, Follow or Get Out of Electrification: Government Policy and Regulation</i> 9:25 am – 9:55 am</p>	<p>Public policy can enable or quash innovation in electrification. Explore with our panel how policy and government need to evolve to remove barriers and enable the best and brightest.</p>	<p>Moderator: Clint Vince, Partner, Dentons Crissy Godfrey, Specialist Leader, Govt. & Public Serv. Energy Practice, Deloitte Brian Dillard, Chief Innovation Officer, City of San Antonio Charlie Hemmeline, Texas Solar Power Association Casey Whittington, National Dir. of Govt. Relations, Blue Duck Scooters</p>
<p><i>Tech Talk: Zero Mass Water</i> 9:57 - 10:07 am</p>	<p>Can you really harvest potable water from the air and a solar panel? Zero Mass Water will demonstrate how.</p>	<p>David Parker, Business Development - Texas, Zero Mass Water</p>
<p><i>Tech Talk: Road Traffic, Street Lights, and More</i> 10:09 am - 10:19 am</p>	<p>A University of Texas San Antonio team has figured out how to power traffic lights and more from everyday road traffic.</p>	<p>Samer Dessouky, PhD, PE, FASCE, Professor, Civil and Envir. Engineering, UTSA</p>
<p><i>The Electrification of Mobility</i> 10:19 - 10:49 am</p>	<p>Buses, cars, and scooters OH MY! Cities are at the center of the changes occurring in the way people move and the trend toward electric versions of the vehicles that carry them. Hear a panel of mobility aficionados break down the issues and the emerging tech.</p>	<p>Moderator: Elena Vasconi, Senior Advisor and Business Strategist, Itron Dale Hill, Founder, Proterra Marcy Bauer, Director of Program Operations, Evgo Nathan Kokes, Brand Manager, Advanced Technology Vehicles, Toyota</p>
<p><i>FIVE MINUTE BREAK</i> 10:49 - 10:54 am</p>		
<p><i>Tech Talk: IncentiFind</i> 10:54 - 11:04 am</p>	<p>IncentiFind is connecting green projects to green incentives.</p>	<p>Natalie Goodman, Founder, IncentiFind</p>
<p><i>Electrification on an Industrial Scale</i> 11:06 am - 11:36 am</p>	<p>Electrification in oil and gas production? Agriculture? Heavy manufacturing? Had not thought that was already happening? Hear from some industrial leaders leveraging the latest technology and winning.</p>	<p>Moderator: Andrew Marshall, PhD, Practice Director, Distributed Energy Resource Management, Landis+Gyr Jon LaFollett, Energy System Integration & Storage Leader, Shell Paul Cosper, Vice President, Power Systems Sales, HOLT CAT Jim Hawkins, Vice President, Global Data Center Operations & Engineering, Rackspace Marco Caccavale, VP Americas, Baker Hughes</p>

<p><i>Tech Talk: Solports</i> 11:37 - 11:47 am</p>	<p>Leveraging solar for electric fleet charging is the work of Solports.</p>	<p>Quincy Holloway, Founder, 3Billion Renewable Energy Corp.</p>
<p><i>FIVE MINUTE BREAK</i> 11:47 - 11:52 am</p>		
<p><i>Electrified or Shocked? Electrification for Your Home and Business</i> 11:55 - 12:25 pm</p>	<p>Always wanted solar panels on the roof or are thinking about a greener new office building? Or do you just want to save money on your electric bill? Electrification is changing rapidly in both residential and commercial spaces. Learn how to leverage the newest processes and enabling technologies in this panel discussion.</p>	<p>Moderator: Dr. Cris Eugster, Chief Operating Officer, CPS Energy Will Lange, Director of Utility Marketing, WaterFurnace Heather Holdridge, LEED, Sustainability Director, Lake Flato Kimberly Llewellyn, Performance Construction Manager, Mitsubishi Electric Cooling & Heating Neilesh Verma, President, Galaxy Builders</p>
<p><i>The Outer Limits of Electrification</i> 12:27 - 12:57 pm</p>	<p>The future of energy is calling and whether society can answer depends heavily on the progress of the research and development community. Hear from an authority leading the charge at the Electric Power Research Institute.</p>	<p>Tom Wilson, Electric Power Research Institute</p>
<p><i>Wrap-Up and Announcements</i> 12:57 - 1:00 pm</p>		<p>Kimberly Britton, CEO, EPIcenter</p>
<p><i>Lunch, Networking, Demo Drives</i> 1:00 - 1:30 pm</p>
