

Caravan Annual Service/Inspection Schedule

Work is carried out in accordance with the latest AWS Standard Working Procedures.

Date: _____

Caravan Make & Model: _____

CRiS Number: _____

✔ =Serviceable, X = See comments, N/C = Not checked, N/A = Not applicable, N/F = Not Fitted.

Gas Supply & Appliances			Flue Gas Analysis CO/CO2 Check			Chassis & Running Gear		
LPG sticker & gas locker box			Fire/Combi			12n & 12s plugs/ 13 pin plug		
Hoses (date and condition)			Water Heater			Road lights & reflectors		
Regulator, cylinder & carry out let-by test			Fridge			Operation & grease corner steadies		
Carry out soundness check on system			Oven			Jockey wheel		
Fire Ignition, flame & FFD			<u>Water System</u>			Breakaway cable		
Combi Ignition, flame & FFD			Water pump			Hand brake, rods, cables & supports		
Water heater Ignition, flame & FFD			Water inlet housing /Filter (if fitted)			Operation & grease overrun piston		
Grill, hob & oven Ignition, flame & FFD			Taps & Shower fittings			Chassis, under floor & cables/pipes		
Fridge Ignition, flame & FFD			WC			Coupling head, gaiter, safety catch & ball acting stabiliser		
Fridge not serviced unless requested			Pressure/Micro switch			Wheel bearings, Hubs & Brakes		
Gas dispersal holes			Drain valve			Torque wheel bolts/nuts		
Working Pressure	mbar	Standing Pressure	mbar	<u>Tyres</u>				
Tyres, wear, damage & pressure				<u>Front Axle</u>		<u>Rear Axle</u>		<u>Spare</u>
Wheel Bolt/Nut Torque				Tread depth	N/S	O/S	N/S	O/S
				Nm	mm	mm	mm	mm
Spare wheel carrier				Pressure				
				psi	psi	psi	psi	psi
Tyre date								
<u>Bodywork/Interior/Exterior</u>				<u>Electrical System</u>				
Damp Test (see report overleaf)				RCD, MCB & Earth bonding (visual inspection)			Check Battery charge, Charger, Inlet Socket & Hook up cable (if available)	
Floor Delamination				13 Amp sockets, wiring & fixed connections			Charger	Battery
							Volts	Volts
Cupboard stays, catches & hinges				Mains operation on Cooker			Solar panel	
Window stays, catches & seals				Microwave			Awning light	
Habitation door locks & hinges				240v operation of Fridge			Smoke & CO alarms	
Roof Lights				240v operation of Water Heater			Fire Extinguisher	
Extractor Fan				240v operation of Fire			After market items	
Interior doors, bed lockers & hinges				240v operation of Combi boiler				
Blinds and Screens				Blown air system			<u>Handover Checks</u>	
Exterior lockers, locks, hinges & panels				Interior Lighting			Lights, water pump & appliances switched off, water drained down	
Grab rails & body attachments				Continuity of 12v circuit for Fridge			Gas, 12v master switch & mains electric Turned off	
Fixed ventilation openings for free air flow				12 volt circuits and fuses			Roof lights, windows & cupboards closed/locked	
Exterior trims and inserts				Visual check of wiring			Exterior lockers & doors locked	
Exterior sealants							Service booked stamped	

Important - This service report only relates to the condition of the Caravan inspected and only at the time of the inspection. It should not be regarded as evidence of the condition of the Caravan, appliances and fittings at any other time.

No guarantee or warranty is given, offered or implied in any way.

Wheel bolt torque must be re-checked after 20 miles and should be checked before EVERY TRIP.
