We do have allergens present in our kitchen, please inform us of any allergies prior to ordering.

The impact of COVID-19 on our suppliers and food system has caused an unprecedented rise in costs over the last several months. In hopes of some stability and in an effort to support our guests, we've done our best to hold off on price increases. Our goal has always been to provide guests with the most reasonable prices possible. However, due to market influence beyond our control, and their direct impact on our business, we've had to raise prices. (As always, we appreciate your support and look forward to continuing serving you.)
