

## 180 KVA MOBILE GENERATOR

Our 180kVA generator offers a prime rating of 144 kW (180 kVA), and a standby rating of 158 kW (198 kVA), with precise voltage control. An electronic governor maintains frequency to  $\pm 0.25\%$  from no load to full load (steady state load). Equipped with a Tier 4 certified John Deere diesel engine to easily meet the stringent EPA standards while providing profitable performance and reliability.

The system's design and weatherproof steel housing provides a substantially low operating noise level of 70 dB(A), approximately the noise experienced inside a car traveling 60 mph, as well as a compact operational footprint. It features an auto/start/stop digital controller that allows the generator to start from a remote location. Its comprehensive analog control panel provides instrumentation, including: AC ammeter, AC voltmeter, frequency meter, AC circuit breaker, AC load percentage, engine gauges and much more.
