

**REENGINE CONSULTING**  
Achieve Breakthrough Performance

# Capability Statement

Continuous Process Improvement/Training • Operational Excellence • Strategic Planning • Change Management • Data Analytics

ReEngine was founded in 2016 by former State, Federal and Local Government employees. At ReEngine we assist public sector organizations in achieving organizational excellence by overcoming challenges to efficient and effective public service. We enable those organizations to transform into continuously improving and learning teams. We have honed proven private sector improvement methodologies specifically for the public sector. ReEngine's methodology delivers a 3-way win:

- Win for the public that receives better services!
- Win for the government leaders whose goals are accomplished!
- Win for the staff that achieve more with less effort!
