

**REENGINE CONSULTING**  
Achieve Breakthrough Performance

# Capability Statement

**Continuous Process Improvement/Training • Operational Excellence • Strategic Planning • Change Management • Data Analytics**

ReEngine was founded by former State, Federal and Local Government employees, to assist public sector organizations in achieving organizational excellence by overcoming challenges to efficient and effective public service. We do this with improvement methods we have specifically honed for the public sector. By enabling organizations to transform into continuously improving and learning teams, our engagements deliver a 3-way win: 1) a win for the public that receives better services; 2) a win for the government leaders whose goals are accomplished; 3) a win for the staff that achieve more with less effort!

**Mission:** Provide continuous improvement expertise to enable better, faster, friendlier and more efficient public service with less effort and strain.

**Vision:** As the collaborative partner of choice, champion continuous improvement and enable performance excellence in the public sector.
