## therM<sup>®</sup> app controlled thermostat

therM<sup>®</sup> is an advanced fully programmable thermostat that can be app controlled from wherever you are in the world. It provides individual room time and temperature control.

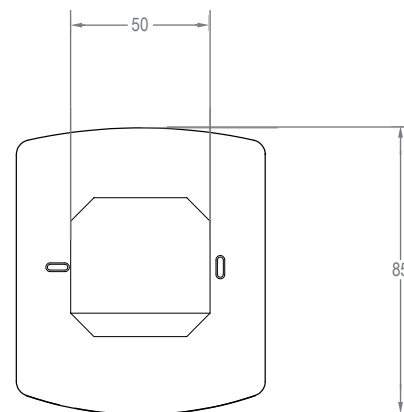

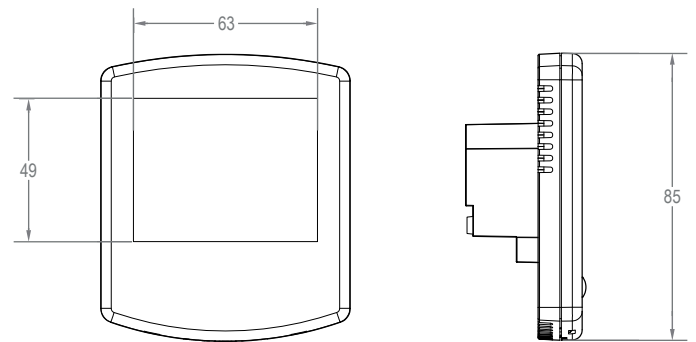

therM<sup>®</sup> can either be controlled and programmed manually, or via a connected phone or tablet.

App control is simply achieved by installing the theM<sup>®</sup> hub. This is a simple plug and play installation with your router.

### Features:

- Connect multiple stats for multiple zones / rooms to the therm hub
- Keylock function
- Holiday function
- Normal wiring L-N-E-SL
- One button press to add to therM<sup>®</sup> network
- Geolocation
- 7-day, 5/2 day, or 1-day programmable
- Optimum start
- °C / °F option
- Optional remote sensor
- Flush mount or 35mm back box

### Technical:

- Installed dimensions: 85mm x 85mm x 13mm
- Weight: 137g
- IP rating: IP20

### Electrical data:

- Power supply: 230VAC 50/60Hz
- Rating: 3A
- Max switching current: 3A

### Temperature range:

- Temperature range: 5°C to 35°C
- Accuracy: ±1°C

## About us

No ifs, no buts. The award-winning Continental Underfloor<sup>®</sup> service means you get an underfloor heating system delivered to you on time, on site, every time, no compromise.
