Dear Friends of the 1Million Project,

In our first year, we have accomplished so much! I want to thank you for your support in helping us provide 1 million high school students with access to technology. #OneMoreDay!

Please continue to visit our website for the latest information on the 1Million Project. If you have any questions for our team, please feel free to reach out.

Thank you again for a terrific first year. As friends, districts and supporters, you've made this year possible. We're grateful for your trust in us to make meaningful change, and we are committed to achieving our ambitious goal of connecting 1 million high school students.

Doug Michelman
President, The 1Million Project Foundation

**A Terrific First Year**

We strongly encourage our member districts to explore 1millionproject.org/school-resources, and to access these materials in order to accelerate students’ learning.

In the coming school year, we look forward to making additional strides toward connecting all 1 million high school students across the country. We are excited to build on the progress we've made in Year One and to continue to unlock the potential of our students.

We're deeply grateful to our event sponsors and we look forward to hosting our second annual Golf Classic next year.

In our first year we have learned that our largest impact is achieved through partnerships. We've been able to leverage the resources and expertise of our event sponsors to help us achieve our ambitious goal. We are grateful for their support and their commitment to making a difference.

Our Insightful District Advisory Council

Our Insightful District Advisory Council provides valuable insights and guidance to help us make informed decisions and improve our programs. Our council members are dedicated leaders in education and technology who are committed to supporting our mission.

We're excited to have made meaningful progress toward our ambitious goal of connecting 1 million high school students. We're grateful for the support of our team, our district partners, and our event sponsors.

**Potential is Everywhere. Opportunity is Not.**

Too many young people in this country face significant challenges in earning an equal opportunity to achieve their full potential. We appreciate each of you who did your part to help more students and address the challenges that we not surprisingly encountered in the first year.

Since we began this work, we've been motivated and guided by the words in our tagline: "Potential is everywhere. Opportunity is not." We are committed to executing our work in order to accelerate students' learning.

We formed the council last December, and have held two engaging meetings by phone. We convened an all-day, face-to-face meeting in Kansas City in June so that we could roll up our sleeves and tackle some of the 1Million Project's most important programmatic topics.

We are particularly excited to host our largest fundraising event to date in July. We're planning a fantastic four-day, three-night experience for our core team and 120 school districts who have joined us on this journey. We are grateful for the support of Sprint and our other generous sponsors, and we look forward to meeting our fundraising goal of $5 million so that we can provide additional mobile connectivity to 150,000 additional students.

We're also planning to hold our first large fundraising event in October. We believe that we can raise the necessary funds to help us achieve our ambitious goal of reaching all 1 million high school students.

---

**The 1Million Project 2-Year Impact**

**Year One Impact**

- 1,400 high schools
- 31 states
- 120 school districts
- 113,000 high school students! The majority of these students will continue in 31 states we provided high-speed, mobile connectivity to more than
- +3 states
- +33 school districts
- +150,000 students
- 84% say having 1MP device + service made it easier for them to study for the SAT using Khan Academy and CollegeBoard’s official SAT practice platform. In exchange for meeting time-
- 82% said students’ attendance improved since receiving their devices.
- 74% said having their 1MP device has made it easier for them to complete their homework in a convenient and safe place
- 91% say having their 1MP device has made it easier for them to complete their homework in a convenient and safe place
- 91% say having their 1MP device has made it easier for them to complete their homework in a convenient and safe place
- 84% say having 1MP device + service made it easier... learning improved since receiving their devices.
- 74% say having 1MP device + service made it easier... learning improved since receiving their devices.

---

**Year Two Goal**

- 153 school districts
- 34 states
- Additional 150,000 high school students; and 2) to dramatically increase compelling student data usage.
