

Diabetes Care - Medicare HMO-POS Results

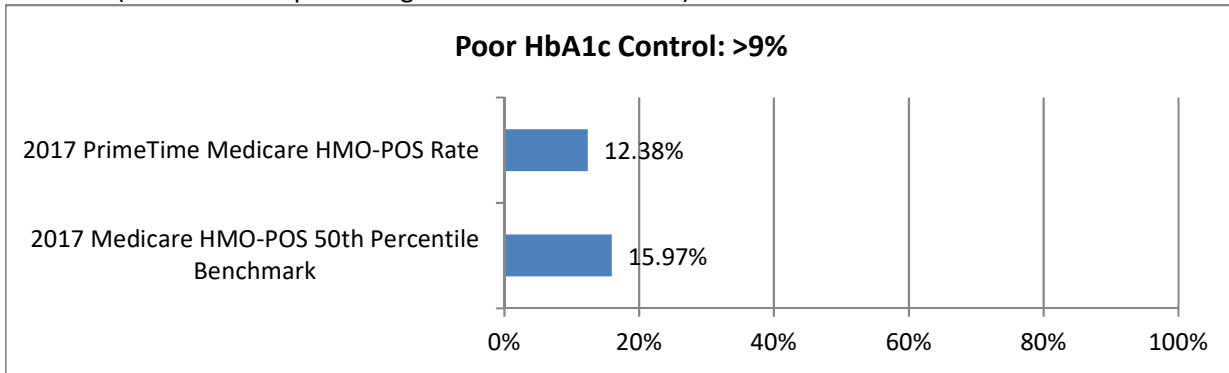

Hemoglobin A1c (HbA1c) testing

The percentage of members ages 18 to 75 years with diabetes who had HbA1c testing.

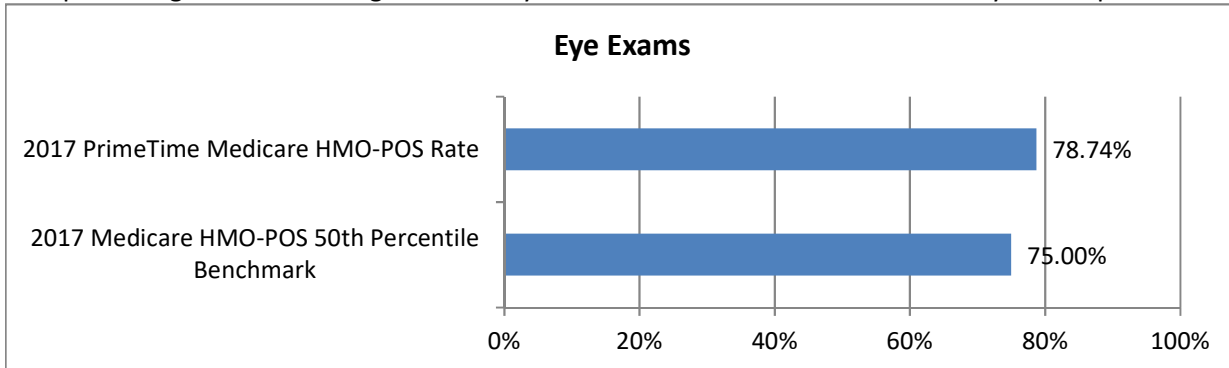

Poor HbA1c Control: Greater than 9%

The percentage of members ages 18 to 75 years with diabetes whose HbA1c screening was greater than 9% (Note: a lower percentage indicates better care)

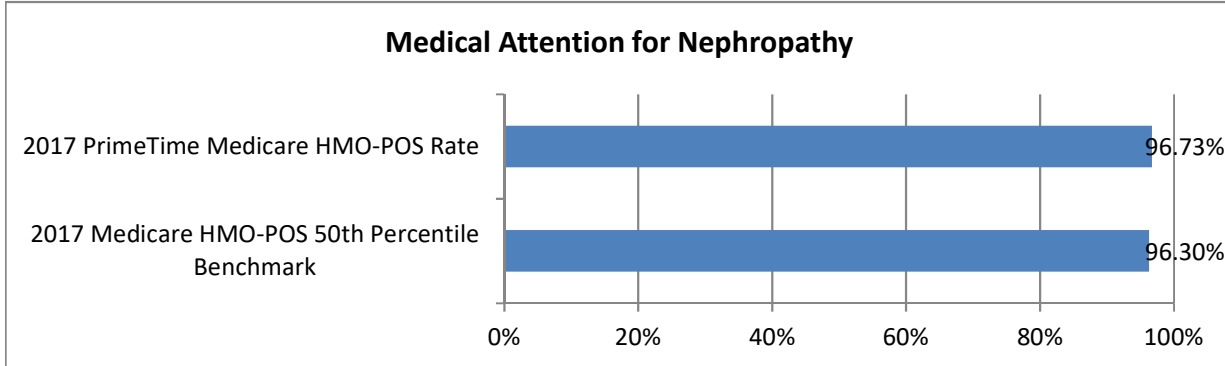

Eye Exams

The percentage of members ages 18 to 75 years with diabetes who had a retinal eye exam performed.

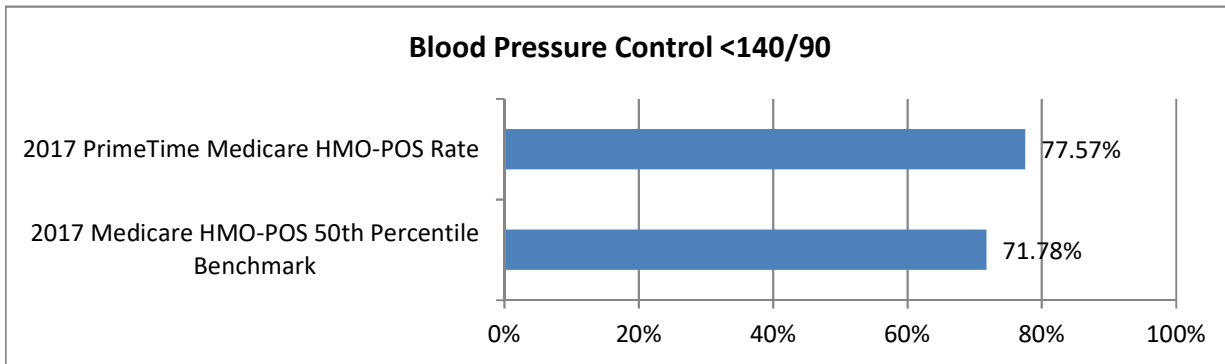

Medical Attention for Nephropathy

The percentage of members ages 18 to 75 years with diabetes who had a nephropathy screening test or evidence of nephropathy.

Blood Pressure Control, Less than 140/90

The percentage of members ages 18 to 75 years with diabetes whose most recent blood pressure level was less than 140/90.
