EXPERIENCE

2016 **Founder / iOS Engineer — SUBTLE TIDE, Paris**

Today
3 years

Building beautiful, high-quality and reliable iOS apps that users love.

- **Franceinfo**, the most popular news app in France with more than 10 million users. Developed the iPhone and iPad apps, enforced best practices, improved tooling while focusing on reducing technical debt.
- **Frichti**, delivering fresh dishes made with love, everyday for launch and diner. Developed the iPhone app, supervised junior developers, enforced best practices, audited and cleaned existing code.
- **WINGiT**, the only app to find in real time all the events around you posted on social networks, by locals. Developed the iPhone and tvOS app, as well as an SDK for selected partners (iDTGV, LeMatin). R&D with the goal of securing WINGiT data in their mobile apps. Supervised junior developers.
- **GEEV**, the first collaborative app for donating and receiving free objects. Developed the iPhone app, from the first draft of the idea to the App Store. Leading technical and user experience advisor.
- **Traakx**, the social network for extreme sports fans. Responsible for developing the iPhone app, GoPro synchronization and custom made tracking device integration.
- **BLOC**, a cryptocurrency with egalitarian proof of work based on the Cryptonight algorithm. Developed the core technology and the iPhone and Android apps.
- Lots of other projects for clients such as **Chanel**, **Boulangier**, **Franprix**, **Baver**, **Citroën**, **L'Oréal**

2013 **iOS and Backend Engineer / Data Analyst — CINÉMUR, Paris**

2016
3 years

- Developed the **CINÉMUR** iPhone app, a social network to discover and share your favorite movies. 3 years of development, from the first line of code to "App of the Week" on the App Store and more than 500,000 downloads.
- Developed the **FnacPLAY** macOS, iPhone and iPad apps, the 100% legal VOD platform by Fnac. Developed the **Warner Bros. VOD** iPad app, allowing companies to offer movies on demand to their clients in a white label fashion. Developed the **Séance Ciné** iPhone app for We Love Cinema (BNP Paribas), enabling people to go to the movies with their friends.
- Developed a high-volume data collection, matching and analytics system using Akka, Hadoop, Hive, Presto and Tableau Server for CINEMUR and their clients. Performed an in-depth data analysis on more than 40 millions orders for one of the biggest VOD content provider in France. Research and developed a user and content recommender system (400 millions data points).
- Created the **CineVR** prototype, a VOD service for virtual reality.

2012 **iOS Engineer — MFG Labs, Paris**

2013
1 year

Developed the **My Warner** iPhone and iPad apps, a unique second screen experience for the most recent Warner Bros. Implemented an image and sound real-time recognition system in order to sync content with the apps.

2011 **iOS Developer — SQLI Agency, Paris**

2012
6 mo

Developed an iPad app improving the sales process of a leading European pool manufacturer in the course of a 6-month internship.

EDUCATION

**Master's Degree in Computer Science —
Université de Technologie de Compiègne (UTC),
2013**

Major in Knowledge and Information Systems Engineering.
