SUMMARY

Highly motivated professional in the field of user experience design and user research with six (6) years of user experience design and research. I have expertise in user interface design, user research including usability testing, in-depth interviews, survey designs and focus group moderation.

WORK EXPERIENCE

Jetstream Africa – User Experience Designer

June 2021 – Present

- Currently the lead for visual and user interface design at Jetstream Africa, working on internal products focused on shipping and logistics

Walulel – User Experience Designer and Researcher

November 2020 – May 2021

- Lead visual and user interface design for Walulel products as well as leading user research to provide user insights for product enhancements
- Redesigned Walulel's landing page to enhance visual style and better user experience in navigating the company website
- Created design system for the Walulel product ecosystem for better designer and developer collaboration and product design consistency

Flutterwave Inc - User Experience Designer and Business Development Manager

September 2017 - September 2020

- Lead user research for internal products to develop better user experience for end users
- Collaborated with design team for redesign and launch of second version of flagship product
- Designed landing page for Flutterwave and Shopify integration to guide users on how to integrate Shopify with the Flutterwave flagship product.
- Prospected merchants and clients and drove up sign-ups for Flutterwave services
- Established strong partnerships with banking institutions and local mobile money partners
- Coordinated direct integration projects for MTN and AirtelTigo mobile money and led efforts to acquire local Payment System Provider license for Flutterwave in Ghana

Userhub Africa, Technical Lead

March 2017 - Present

- Lead user research project for Bambwa, a Swedish streaming platform, to help determine product fit in Ghana. Research activities included survey design and focus groups moderations.
- Conducted a heuristic evaluation for a crowdfunding platform to help with usability issues.
- Conducted usability testing for mobile and app products for the Klarity organization to help with product improvement and usability enhancements.
