

## **Excellence in Organizational Leadership**

**David Chancellor**

**Boys & Girls Club of the Permian Basin**

David Chancellor has been serving the children of the Permian Basin at the Boys and Girls Club since 2009. Shortly after he joined the organization, he led the Boys and Girls Club of Midland and Odessa to form the Boys and Girls Club of the Permian Basin. The merger helped streamline the organization with less overhead. When he was named executive director, the morale of staff and board improved, facilities improved, programs improved, and the Clubs became better places for the kids. Participation numbers tripled to more than 4500 children with annual revenue of \$3 million.

David has helped navigate the Boys and Girls Club thru the COVID-19 pandemic. Despite schools closing in the spring, the Club continued to reach out to children by providing books and activities to students, offering drive-thru food pick up, and keeping activities available for students over the summer.

"David Chancellor is as admirable an executive director as he is as a man. He inspires trust and creativity unlike anyone I know. He is truly deserving of a distinguished Beacon Award." Guy McCrary, President, and CEO, Permian Basin Area Foundation

Our community is a better place because of David Chancellor's dedication to bettering children's lives in the Permian Basin.

2020 Beacon Award Excellence in Organizational Leadership - David Chancellor, Executive Director of Boys & Girls Club of the Permian Basin
