

ROUND-4 - MANUFACTURING WINDOW

CHALLENGE

Your business project will need to address the following challenge to be eligible to be considered for the Manufacturing window of the Malawi Innovation Challenge Fund competition:

The project has to enable manufacturers either in the agriculture or non-agriculture sector to compete either in the domestic market (e.g. through import substitution) or into regional and international export markets, through backward integration of processes to incorporate locally produced products and services and reduce reliance on imported goods. At the same time, the new initiatives shall target a positive domestic social or environmental impact to be integrated into the business model of the company.
