or monaco.training.center@gmail.com.

Why EMDR?

EMDR is an evidence-based practice as listed by SAMHSA.

The American Psychiatric Association, the International Society for Traumatic Stress Studies, the US Department of Veterans Affairs

and Department of Defense designated EMDR as a treatment of choice for Post Traumatic Stress.

90% of mental health clients have experienced multiple traumas in their life.

How is this program different from other EMDR trainings?

This is a hands-on clinical skills training for using EMDR and integrating it with your psychotherapy approach. This top-of-the-line training program exceeds EMDRIA's criteria for EMDR basic training, and features:

- No "Parts" or "Levels" – this is the whole package. No "extra costs" for consultation.
- 55 contact hours over several months to support mastery; 52 CEs
- Two full pre-EMDR days on trauma treatment approach and interventions.
- Small group size (max of 18)
- Instructor to participant ratio of at least 1:10.
- Text book and other materials included.
- Competitive cost. Follow-up group consultation sessions included.
- Attachment, Dissociation, Flash module included

The training program involves lecture, demonstration, in-class practice, and on-the-job practice with your clients. This is an experiential training, and part of the learning is to practice the interventions with other participants.

Who may attend?

EMDR Therapy training is open to master level mental health professionals who are licensed (certified or registered) by their state for independent practice and have a caseload

to practice the therapy while in the course. This training is also open to mental health professionals on a licensure track, with a letter of support from their supervisor.

What will I learn?

Participants will be able to:

- Identify clients who are ready for EMDR and prepare clients for EMDR.
- Conduct an EMDR session.
- Problem-solve a session that is not going smoothly.
- Use EMDR with a wide range of clients whose presenting problems are in some way related to trauma and/or loss.
- Integrate EMDR into a comprehensive trauma-informed treatment approach.

Continuing Education Credit

CEU information for all professional disciplines can be found at

<http://www.trauma.info/training/ceu>.

R. Cassidy Seminars is recognized by the New York State Education Department's State Board for Social Work as an approved provider of continuing education for licensed social workers, Provider #0006. Trainers

Annie Monaco, LCSW, RPT, is an EMDR Instructor, Consultant and faculty member of TI/CTI. Annie travels extensively throughout the US and internationally providing a multitude of trauma-

informed trainings including agency and therapist consultation. Annie has over 25 years of experience serving children, teens, families and adults. She has extensive experience in complex adult trauma, family therapy, and play therapy. She specializes in dissociation, foster care, out of country adoption and offenders.

Annie and Ann are the co-editors and chapter contributors of the book EMDR and Children in the Play Therapy Room: An Integrated Approach.

Ann Beckley-Forest, LCSW-R, RPT-S

Ann Beckley-Forest is a Licensed Clinical Social Worker in private practice in Buffalo, New York. Her specialties include attachment and child and

adolescent trauma. She is a registered play therapist and supervisor and approved provider of play therapy continuing education. She is certified in EMDR and is an EMDR Approved Consultant and a faculty member of the Child Trauma Institute. She has given trainings locally and internationally. Her primary interest is in the intersection of play therapy and EMDR and has published on this topic in the September 2015 issue of Play Therapy.
