Licensed Clinician Job Summary

We are a reputable, hard-working, highly-compassionate, creative and people-focused counseling practice in Endicott, NY. We'd be delighted to add NYS Licensed Mental Health Counselors, Art Therapists, Marriage and Family Therapists or Social Workers that are passionate about helping children, adolescents, marriages and/or families overcome their challenges.

Specializations in Art, Play or Sand Therapy; DBT, PCIT, EMDR or Narrative Therapy is highly desired. Though we'd love fully-licensed clinicians we are open to hiring those working toward full licensure.

As a member of our family you'll enjoy tons of professional collaboration, camaraderie and development. Because our vocation is so emotionally and relationally intense we intentionally create a team environment that is healthy, conversant and relaxed.

Counselor Duties and Responsibilities

- Provide individual and group mental health counseling sessions.
- Participate in weekly team meeting/group supervision.
- Make appropriate referrals based on clinical judgments.
- Complete and maintain required documentation in alignment with HIPPA, ethical and legal standards (intake, treatment plans, session and discharge notes, release of information).
- Contribute to building relationships within the larger community through networking, writing and/or participating in civic roles that interest you and reflect the values of our practice.

Counselor Requirements and Qualifications

- Possesses superb written and spoken communication skills
- Excellent interpersonal skills with patients, colleagues, and community resources
- Compassionate and caring of clients
- Excellent time management skills; organized and able to prioritize
- Able to organize and manage files, schedules, dates, and information
- Calm and cool-headed with a positive attitude
- Self-directed and self-motivated
- Comfortable with building personal relationships and dedicated to helping others
- Empathetic and supportive with mentorship and leadership skills
- Bachelor's degree in related field; Master's degree in psychology, clinical mental health counseling, marriage and family therapy, or a related mental health field
- Hold license to perform in state
- Proficient computer skills, such as Google Docs, email, and Electronic Medical Records (EMR)
- Good interpersonal skills and communication skills with both clients and staff
- Willingness to work evenings and/or Saturdays is a huge plus
