

As an employer and contractor, Bronzewood Construction have always recognised the responsibility of ensuring the health and safety of the company's employees and associates.

Pure Safety Solutions Ltd

Bronzewood Construction work closely with Pure Safety Solutions Ltd – a health and safety management consultancy – to ensure the best possible standards of compliance. A range of professional support services is provided by Pure Safety to optimise the efficiency of our day-to-day business operations, including advice in all areas of Risk. The company is provided with ongoing support in areas which can directly influence and affect the running of our business.

By working closely with Pure Safety Solutions - our team ensures swift conclusions to any potential safety issues. We have demonstrated investment in Health and Safety significantly in the previous 12 months to develop and implement a robust and usable safety management system allowing Our Team to deal more effectively with any potential on-site health and safety issues.

Pure Safety Solutions make an annual review of our systems and processes, which result in action plans being developed to ensure issues are identified and prompt improvements can be implemented.

Mission

Our Mission is to provide Bronzewood Construction with a professional and effective range of Health and Safety, Environmental and Training Management services. We recognise that each client is unique and our aim is to always listen carefully and respond to their needs. This way, we are able to successfully relieve the burden of managing these important areas of the business, give peace of mind to those with that responsibility and assist in complying with legal obligations.

In short, we are committed to delivering a high standard of personal and professional service to Bronzewood Construction, in a focused way that ensures client satisfaction and overall compliance.
