

Primary Location of work: Calgary

Position(s): Environmental Professional - Office

Prospect is looking for a junior environmental professional to join our team in Calgary, to support both projects in British Columbia and Alberta. Some familiarity with the applicable provincial and federal acts and regulations is beneficial; however, on the job training will be required. If you possess the skills listed below, and are looking for an exciting change, contact us today.

The following are some of the responsibilities that may be associated with this role:

- Communicate with Management and Supervisors
- Review oil and gas file records
- Complete aerial imagery reviews
- Review applicable databases for required information
- Complete research as required
- Data tabulation
- Compile reports from file review records, site visits and assessments
- Assist with coordinating field activities (complete provincial one calls, schedule line locates bottle orders, etc.)
- Complete required updates to clients and other service providers

A successful candidate will possess a combination of the following attributes, skills and qualifications:

- Resourceful
- Adaptable
- Detail oriented
- Technical diploma or degree from Canadian education institute.
- Understanding of Canadian environmental regulations
- General knowledge of contaminated sites related reporting requirements
- Strong technical writing skills
- High competency in the suite of Microsoft Office programs
- The ability to multi-task and think outside the box
- Related field experience in Canadian environmental consulting or a related discipline (not required, but beneficial)

Prospect offers an excellent compensation package of competitive wages and benefits which will vary based on qualifications and experience. Thank you for your interest. Potential candidates will be contacted for interviews. *References are required.*
