TROY UNIVERSITY™

Department of Theatre and Dance

THE INTENSIVES

July 22-28

High School Students & Incoming University Freshmen

In the Department of Theatre and Dance at Troy University, we practice our creative habit each and every day, and we are excited to extend focused training to high school students and recent graduates in our SUMMER SPOTLIGHT INTENSIVES.

Our INTENSIVES are not camps, but rather a focused process committed to increasing potential in theatre and dance. It's also a highly recommended opportunity for recent graduates who will be entering university theatre or dance programs in the fall.

Resident participants live in University housing under the supervision of the University's resident assistants and our theatre and dance majors who serve as counselors. Instructors are members of our faculty, alumni, and invited guest teaching artists from the field.

The Intensives are strongly encouraged for serious theatre and dance students.

PERFORMANCE INTENSIVE

Spend seven days on our campus immersed in all facets of theatre and dance performance—auditions, acting, scene study, vocal technique, ballet, musical theatre, choreography, playwriting, commercial dance, and more. Our classes and workshops are offered for multiple levels of skill and experience for beginners to advanced students. You'll rehearse throughout the week for the weekend showcase, and cabaret performances during the week allow performers more chances to take center stage!

TECH & MANAGEMENT INTENSIVE

Designers, technicians, and managers, this week is for you. Hands-on training in sound, lighting, scenery, props, and stage management allows you to try your hand at several areas of production. Rehearsals with directors and performers allow you the opportunity to collaborate with other theatre and dance artists, and the showcase is managed and run completely by Intensive participants.

PAST PARTICIPANTS' EXPERIENCES

"Summer Spotlight changed the way I looked at performance forever. It's not about you, as a singular performer—it's about the community you share the stage with."

- Lacey Alexander | Birmingham, AL

"I attended Summer Spotlight the summer before I started my freshman year at Troy University. It was a blast! Not only did I further my skills in theatre, but it also gave me an opportunity to meet students who were already in the department. It was a great way to get involved and meet new people before starting my adventure at TROY!"

- Brooke Johnston | Montgomery, AL

"I learned so much, gained a lot of wonderful experience, and made lasting friendships I will have forever. I wish I had known about the program longer because then I could have been a part of it earlier. I'm so glad I got to be a part of something so inspiring."

- Katie Miller | Gulfport, MS

"Attending Summer Spotlight was a turning point in my life. I had never been exposed to such a high level of performance, and I was amazed with the progress that I made with my confidence and communication in just one week."

- Baine Ellis | Cataula, GA

WORK WITH GUEST ARTISTS
