

HIRING A DUI LAWYER DOESN'T HAVE TO SUCK!

All it takes is four questions to know if a lawyer is the right one to handle your Atlanta DUI case.

Q How many trials did you have last year?

If a lawyer is not actively trying cases, they will not be able to negotiate from a position of strength. Only trial lawyers can get the good plea deals.

Q How many similar cases have you handled?

Has your attorney tried a breath test case? What about a blood draw case? Have they handled a case involving SFST?

Q What additional certifications do you have?

Is the attorney board certified? Certified in Gas Chromatography for blood draw cases? SFST certified?

Q Which prestigious, national organizations do you belong to?

Does the attorney belong to national, invitation-only organizations? Do they teach at any seminars for those organizations?

If you'd like to learn more about handling your DUI case from the blood expert, Kelly W. Case, you can download his new book for FREE at
